História arquivística: A coleção ADEB I foi adquirida em dois momentos: entre 1985 e 1986, o Banco do Estado de São Paulo S.A. (Banespa) patrocinou a microfilmagem e a vinda para o Brasil de algumas séries documentais que compõem o Record Group 59/General Records of the Department of State in the National Archives, Washington, DC. São eles: Records of the Department of State Relating to Internal Affairs of Brazil, 1910-1929 (M519), Records of the Department of State Relating to Political Relations between the United States and Brazil, 1910-1929 (M525), Records of the Department of State Relating to Political Relations between Brazil and the Others States, 1910-1929 (M526), Records of the Department of State Relating to Internal Affairs of Brazil, 1930-1939 (M1472), Records of the Department of State Relating to Internal Political and National Defense Affairs of Brazil, 1950-1954 (M1487), Records of the Department of State Relating to Internal Economic, Industrial, and Social Affairs of Brazil, 1950-1954 (M1489), Records of the Department of State Relating to Internal Affairs of Brazil, 1945-1949 (M1492), Despatches from U.S. Consults in Santos, Brazil, 1831-1906 (T351), Records of the U.S. Department of State Relating to Internal Affairs of Brazil, 1960-1963 (C80). Em 2008, esta coleção veio a ser complementada com a aquisição de outras séries do mesmo Record Group 59/General Records of the Department of State in the National Archives. Estes microfilmes foram adquiridos pela Biblioteca Prof. Dr. Octavio Ianni, Projeto FAP-Livros V/FAPESP. São eles: Notes from the Brazilian Legation in the United States to the Department of State, 1824-1906 (M49), Despatches from U.S. Ministers to Brazil, 1809-1906 (M121), Records of the Department of State Relating to Internal Political and National Defense Affairs of Brazil, 1955-1959 (1511), Records of the Department of State Relating to Internal Affairs of Brazil, 1940-1944 (M1515), Despatches from U.S. Consults in Rio Grande do Sul, Brazil, 1829-1897 (T145), Despatches from U.S. Consults in Rio de Janeiro, Brazil, 1811-1906 (T172), Despatches from U.S. Consults in Bahia, Brazil, 1850-1906 (T331), Despatches from U.S. Consults in Pernambuco, Brazil, 1817-1906 (T344), Despatches from U.S. Consults in Maranham (Maranhão), Brazil, 1817-1876 (T398), Despatches from U.S. Consults in São Salvador, Brazil, 1808-1849 (T432), Despatches from U.S. Consults in Para, Brazil, 1831-1906 (T478), Despatches from U.S. Consults in Santa Catarina, Brazil, 1831-1874 (T483). Respeitamos os códigos de acesso dos microfilmes originais, que se encontram entre parêntesis, e atribuímos um número de localização física para guarda no AEL. A coleção ADEB II foi adquirida por meio da Biblioteca Prof. Dr. Octavio Ianni/IFCH, através do Projeto FAP-Livros V/FAPESP, e encaminhada ao AEL no ano de 2012. O AEL possui "FO 13 Foreign Office, General Correspondence1906, Brazil".

Procedência: Doação em 198_ e 2008 (ADEB I) e em 2012 (ADEB II).

Ambito e conteúdo: Arquivos Diplomáticos e Estrangeiros sobre o Brasil I (Estados Unidos): 1799-1963. Esta documentação pertence ao "Record Group 59: General Records of Departament of State" do National Archives, Washington, D.C. A coleção abrange correspondências com os oficiais diplomáticos e consulares norte-americanos, firmas particulares e indivíduos. Há relatórios sobre política, ordem pública, assuntos militares e econômicos do Brasil. A documentação microfilmada

pelo Banespa traz mensagens presidenciais do governo brasileiro ao Congresso Nacional, artigos de jornais, panfletos, informes sobre as condições de vida e comportamentos sociais, análises militares sobre as relações do Brasil e outros países, posição do governo Vargas frente aos Estados Unidos. A documentação microfilmada por meio do Projeto FAP-Livros V traz "Dispatches from US Ministers to Brazil, 1808-1906" (74 rolos de microfilme) e todas as séries até 1963 dos "Records of the Department of State relating to internal affairs of Brazil": 1910-1929 (59 rolos), 1930-39 (48 rolos), 1940-44 (84 rolos), 1945-49, 1950-54, 1955-59 e 1960-63. O AEL possui documentação dos vários consulados norte-americanos do começo do século XIX até 1906. Os distritos consulares são: Rio Grande do Sul, Santos, Rio de Janeiro, Santa Catarina (até 1874), Pará, Pernambuco, Bahia e Maranham [sic] (até 1876). Arquivos Diplomáticos e Estrangeiros sobre o Brasil II (Grã-Bretanha): 1824-1905. A coleção é formada por correspondências sobre o Brasil, especialmente das relações econômicas e políticas entre o Brasil e a Grã-Bretanha. Inclui informação, às vezes bastante detalhada, sobre a política interna brasileira; traz correspondências entre oficiais dos dois países e relatórios de fontes não governamentais.

NOTES FROM THE BRAZILIAN LEGATION IN THE UNITED STATES TO THE DEPARTMENT OF STATE, 1824-1906

THE NATIONAL ARCHIVES
NATIONAL ARCHIVES AND RECORDS SERVICE
GENERAL SERVICES ADMINISTRATION
WASHINGTON: 1965

NOTES FROM THE BRAZILIAN LEGATION IN THE UNITED STATES TO THE DEPARTMENT OF STATE, 1824-1906

On the eight rolls of this microcopy are reproduced eight volumes that consist, for the most part, of notes from the Brazilian Legation (Embassy after 1905) in the United States to the Department of State between April 5, 1824, and July 27, 1906. On Roll 1 of this microfilm publication are reproduced selected pages from 13 State Department registers of correspondence, which, taken as a unit, comprise a register of notes from the Brazilian Legation from April 5, 1824, through December 26, 1906. These notes, with their enclosures, are arranged in chronological order.

Occasionally there are included in the volumes unofficial communications from officials of the Brazilian Legation to the Department of State, communications from Brazilian officials to the President of the United States, memoranda prepared by State Department officials commenting on Brazilian notes, memoranda of conversations between officials of the Brazilian Legation and the Department of State, communications from White House officials, and copies of speeches delivered by Brazilian ministers and ambassadors.

The notes contained in this series are written in French, Portuguese, or English. Those in French and Portuguese are frequently accompanied by English translations prepared by the Department of State. Among the enclosures are letters from the Emperor of Brazil to the President of the United States, communications from the Minister of Foreign Affairs of Brazil, lists of officials and employees of the Brazilian Legation and of Brazilian consular officials in the United States, copies of communications from Brazilian consulates in the United States to the Legation, and pamphlets, newspapers, and other printed materials.

The records reproduced in this microcopy are part of a body of records in the National Archives designated as Record Group 59, General Records of the Department of State.

In the same record group in the National Archives are several other series of records on relations between Brazil and the United States. Complementary to the notes from the Brazilian Legation are the notes to the Brazilian Legation in the United States from the Department of State. 1834-1906 (Roll 9 of Microcopy 99); copies of instructions from the Department of State to United States Ministers to Brazil. 1833-1906 (Rolls 23-26 of Microcopy 77); and despatches

from United States Ministers to Brazil to the Department, 1809-1906 (Microcopy 121).

In addition there are despatches from United States consular officials at Bahia, 1850-1906; Maranhão, 1818-76; Para, 1831-1906; Pernambuco, 1817-1906; Rio de Janeiro, 1811-1906; Rio Grande do Sul, 1829-97; St. Catherine, 1831-50; and Santos, 1831-1906. Complementary to the despatches are instructions to the consuls. All these series were discontinued on August 14, 1906, when the Department of State adopted the practice of filing incoming and outgoing correspondence by subject.

In Record Group 84, Records of the Foreign Service Posts of the Department of State, in the National Archives, are records originally kept at U.S. diplomatic and consular posts. Among these are records of the U.S. Legation (later Embassy) in Brazil, 1809-1935, as well as those of most consular posts in that country.

DESPATCHES FROM UNITED STATES MINISTERS TO BRAZIL 1809-1906

On the 74 rolls of this microfilm publication are reproduced 74 volumes that consist mainly of despatches addressed to the Department of State by U.S. diplomatic representatives to Brazil between April 3, 1809, and August 10, 1906. On the first roll are reproduced selected pages from 13 State Department registers of correspondence, which, taken as a unit, comprise a register of despatches from Brazil from April 3, 1809, through December 4, 1906.

Most of the communications are original despatches, and many of them are accompanied by enclosures. These despatches relate to such matters as Brazilian political and economic conditions and events, cases of alleged mistreatment of United States citizens in Brazil, claims of these citizens against the Brazilian Government, slavery and the slave trade in Brazil, operations of United States naval vessels in the South Atlantic, violations of Brazilian neutrality during the Civil War in the United States, trade between Brazil and the United States, and the appointment, qualification, and conduct of United States consular officials in Brazil. Many of the enclosures are copies of notes to or from officials of the Brazilian foreign office. Such notes, in turn, often transmit enclosures, such as copies of complaints or claims by United States citizens, and various kinds of information concerning. Brazil requested by United States diplomatic representatives. Other enclosures relate to other activities of United States citizens or officials. Pamphlets, issues of newspapers, and other printed materials are sometimes enclosed.

Apart from numbered despatches and enclosures, these volumes contain many unnumbered communications, some of which are marked "Private" or "Confidential." These unnumbered communications, more informal than despatches, may report official matters requiring secrecy or not fully covered in the despatches or may convey personal news, acknowledgments of appointment, announcements of arrival or departure, and bills of official expenses. The volumes also contain occasional telegrams or cables, which are not numbered, communications from private citizens and White House officials, and memorandums prepared by State Department officials.

From March 7, 1809, the date of the appointment of Thomas Sumter, Jr., as Minister Plenipotentiary of the United States to the court of the Prince Regent of Portugal in Brazil, until August 6, 1820, when Sumter's successor, John Graham, died, the ranking United States official in Brazil held the rank of Minister Plenipotentiary. In April 1821 the Portuguese court left Brazil for Portugal, and the communications from United States diplomatic representatives in Brazil cease on July 12, 1821. It will be noted that there is a gap in the series from that date until December 11, 1824. From March 9, 1825, the date of the appointment of Condy Raguet as Chargé d'Affaires of the United States in Brazil, until September 13, 1841, the chief of the United States diplomatic mission in Brazil held the title of Chargé d'Affaires. From September 13, 1841, the date of the appointment of William Hunter as Envoy Extraordinary and Minister Plenipotentiary, until January 13, 1905, the head of the mission to Brazil held this title. Since January

13, 1905, the date of the appointment of David E. Thompson as Ambassador Extraordinary and Plenipotentiary, the title of the head of the mission has been that of Ambassador Extraordinary and Plenipotentiary.

An index by names of authors follows this introduction, giving the author's title, if any, inclusive dates of communications written by him, and the numbers of the rolls on which the communications are filmed. The following abbreviations for titles have been used: MP, Minister Plenipotentiary; EE and MP, Envoy Extraordinary and Minister Plenipotentiary; and AE and P, Ambassador Extraordinary and Plenipotentiary.

The records reproduced in this microcopy are part of a body of records in the National Archives designated as General Records of the Department of State, Record Group 59.

In the same record group in the National Archives are several series of volumes containing additional material on the relations between Brazil and the United States. Complementary to the diplomatic despatches are instructions to United States Ministers to Brazil, 1833-1906 (reproduced as M77, rolls 23-26). Also related to these are notes from the Brazilian Legation in the United States to the Department of State, 1824-1906 (M49), notes from the Department of State to the Brazilian Legation, 1834-1906 (M99, roll 9), despatches from United States consular officials in Bahis (Salvador), 1850-1906, Maranham (São Luiz), 1818-76, Pará, 1831-1906 (including despatches from Manáos, 1861-82, Maranham, 1876-77, and Parnahita, 1867-72), Pernambuco (Recife), 1817-1906, Rio Grande, 1817-1906, and Santos, 1831-1906; and instructions to these consuls. All these series were discontinued on August 14, 1906, when the Department of State adopted the practice of filing incoming and outgoing correspondence by subject.

There are related records in other record groups in the National Archives. Records of the Foreign Service Posts of the Department of State, Record Group 84, includes the records of the United States Legation in Brazil, 1809-1935, as well as those of various consular posts in that country. In the Naval Records Collection of the Office of Naval Records and Library, Record Group 45, are the Letters Received by the Secretary of the Navy from Commanding Officers of the Brazil, 1841-61, and South Atlantic, 1865-85, squadrons, (M89, rolls 14-30 and 207-227).

RECORDS OF THE DEPARTMENT OF STATE RELATING TO INTERNAL AFFAIRS OF BRAZIL, 1910-1929

On the 54 rolls of this microfilm publication are reproduced the records from the decimal file of the Department of State. 1910-29, that relate to internal affairs of Brazil. The records, consisting of bound volumes and unbound documents, are mostly instructions to and despatches from diplomatic and consular officials; the despatches are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representatives in the United States, memorandums prepared by officials of the Department, and correspondence with officials of other Government departments and with private firms and persons. The Lists of Documents or "purport sheets" reproduced on rolls 1-3 give brief abstracts of the documents reproduced in this microfilm publication and serve as a finding aid to the documents themselves. The arrangement of the entries on these lists generally corresponds to the arrangement of the documents in the file.

From 1910 to 1963 the Department of State used a decimal system for its central files, assembling and arranging individual documents according to subject and assigning file numbers. The decimal file consists of nine primary classes numbered O through 8, each covering a broad subject area. The records reproduced in this microfilm publication are in Class 8, Internal Affairs of States. The country number assigned to Brazil is 32; thus the documents bear the file number 832 and relate to internal affairs of Brazil. A decimal point is used after the first three digits, followed by a number that represents a specific subtopic. This number, in turn, may be followed by a slant mark (/). In such cases the numbers after the slant mark were assigned to individual documents as they were accumulated on a specific subject. For example, a decimal file number taken from a document reproduced in this microfilm publication is 832.51/556. The number 51 signifies that the subtopic is financial conditions, and the number after the slant mark indicates the number of documents on this subtopic.

The documents under one subject classification are generally in chronological order, coinciding with the document number assigned (which follows the slant mark). There are instances, however, when a document file number was not assigned until a date considerably later than the one on which the document was received.

Cross-reference sheets referring to related records under other subject classifications in the decimal file have been reproduced as they occur, and appropriate cross-reference notations appear in the Lists of Documents. Other cross-reference notations are to documents in the "numerical file," a system used for the central files of the Department of State for the period 1906-10. The checkmarks that appear by most entries in the left-hand column of the Lists of Documents indicate that the papers are in the file; entries without marks, it is believed, refer to documents that were not among the records when they were received from the Department of State.

Some of the documents that have been checked in the Lists of Documents do not appear in this microfilm publication. The file contains security-classified documents and communications received from and classified by foreign governments and Federal agencies, in addition to those classified by the Department of State. Documents that have not been declassified are not available as part of this publication. The National Archives and Records Service does not have authority to make reproductions of such documents available to searchers.

The largest group of records reproduced in this publication concern political affairs (832.00). Among the subjects covered are National and State elections, conflicts between various high government officials, relations between Brazil and Germany before and during World War I, the sinking of the Brazilian ship Parana by German submarines, and the ensuing riots, and Brazilian neutrality and eventual entry into the war against Germany, 1917. Following World War I, most of the records relate to riots, civil unrest, and revolutionary activities of dissident civilian and military groups. There are extensive monthly diplomatic reports on general political conditions in Brazil and monthly reports from various consular districts describing local political conditions.

The records reproduced in this microfilm publication are part of the records in the National Archives designated as General Records of the Department of State, Record Group 59.

In the same record group are several diplomatic correspondence series containing additional documents on relations between Brazil and the United States. They are copies of instructions from the Department of State to U.S. Ministers to all countries, 1815-33 (rolls 3-7 and 9 of M77), and to U.S. Ministers to Brazil, 1833-1906 (rolls 23-26 of M77); notes to foreign ministers and consuls in the United States from the Department, 1821-34 (rolls 3-5 of M38), and notes to the Brazilian Legation in the United States from the Department, 1834-1906 (roll 9 of M99); despatches from U.S. Ministers to Brazil to the Department, 1809-1906 (rolls 1-74 of M121); and notes from the Brazilian Legation in the United States to the Department, 1824-1906 (M49).

Despatches from U.S. consular officials in Brazil are available as separate microfilm publications for each post with varying

date spans between 1811 and 1906. Complementary to the despatches are instructions to consuls.

The method of arranging the diplomatic and consular series cited above was discontinued in 1906, when the Department of State adopted the practice of filing incoming and outgoing correspondence, memorandums, and other documents by subject in a single numerical series. Information on documents relating to Brazil for the 1906-10 period may be found through the use of card indexes and Lists of Documents in the National Archives.

Among the records in the same record group, in Class 7 of the Department of State decimal file, 1910-29, are two other series regarding Brazilian affairs that are closely related to the records reproduced in this microfilm publication. One concerns political relations between the United States and Brazil (M525), and the other is political relations between Brazil and other states (M526).

Additional documents are in the remaining classes of the Department of State decimal file as follows:

Class O. General. Miscellaneous.

Class 1. Administration, Government of the United States.

Class 2. Extradition.

Class 3. Protection of Interests.

Class 4. Claims.

Class 5. International Congresses and Conferences.
Multi-lateral Treaties. League of Nations.

Class 6. Commerce. Customs Administration. Commercial
Relations, Treaties and Conventions.
Commercial and Trade Agreements.

In Records of the Foreign Service Posts of the Department of State, Record Group 84, are records originally kept at U.S. diplomatic and consular posts. Among these are records of the U.S. Legation (later Embassy) in Brazil, 1809-1935, and of consular posts in that country.

Other records relating to Brazil are in Records of International Conferences, Commissions, and Expositions, Record Group 43, including documents relating to several conferences, commissions, and exhibitions in which Brazil participated. Records of Boundary and Claims Commissions and Arbitrations, Record Group 76, includes records relating to the Convention for the Settlement of Claims, signed at Rio de Janeiro, January 27, 1849, between the United States and Brazil.

The records reproduced in this microfilm publication were prepared for filming by Ralph E. Huss, who wrote these introductory remarks and provided the other editorial material.

Microcopy No. 526 Records of the Department of State Relating to Political Relations Between Brazil and Other States, 1910-1929	7

RECORDS OF THE DEPARTMENT OF STATE RELATING TO POLITICAL RELATIONS BETWEEN THE UNITED STATES AND BRAZIL, 1910-1929

On the single roll of this microfilm publication are reproduced the records from the decimal file of the Department of State, 1910-29, that relate to political relations between the United States and Brazil. The records, consisting of bound volumes and unbound documents, are mostly instructions to and despatches from diplomatic and consular officials; the despatches are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representatives in the United States, memoranda prepared by officials of the Department, and correspondence with officials of other Government departments and with private firms and persons. The Lists of Documents or "purport sheets" filmed at the beginning of the roll give brief abstracts of the documents reproduced in this microcopy and serve as a finding aid to the documents themselves. The arrangement of the entries on these lists generally corresponds to the arrangement of the documents in the file.

From 1910 to 1963 the Department of State used a decimal system for its central files, assembling and arranging individual documents according to subject and assigning decimal file numbers. The decimal file consists of nine primary classes numbered 0 through 8, each covering a broad subject area. The records reproduced in this microcopy are in Class 7, Political Relations of States. The country numbers assigned to the United States and to Brazil are 11 and 32, respectively. Thus the documents bear the file number 711.32 and concern political relations between the United States and Brazil.

When one or more digits follow the second country number, they represent a specific subject. This number, in turn, may be followed by a slant mark (/). In such cases the numbers after the slant mark were assigned to individual documents as they were accumulated on a specific subject. For example, a decimal file number taken from a document reproduced in this microcopy is 711.322/13. The number 2 following the country number for Brazil (32) signifies that the subject is a treaty concerning commerce and navigation, and the number after the slant mark indicates the number of documents on this subject.

The documents under one subject classification are generally in chronological order, coinciding with the document number assigned (which follows the slant mark). There are instances, however, when a document file number was not assigned until a date considerably later than the one on which the document was received.

Cross-reference sheets referring to related records under other subject classifications in the decimal file have been reproduced as they occur, and appropriate cross-reference notations appear in the Lists of Documents. Other cross-reference notations are to documents in the "numerical file," a system used for the central files of the Department of State for the period 1906-10. The checkmarks that appear by most entries in the left-hand column of the Lists of Documents indicate that the papers are in the file; entries without marks, it is believed, refer to documents that were not among the records when they were were received from the Department of State.

Some of the documents that have been checked in the Lists of Documents do not appear in this microcopy. The file contains security-classified documents and communications received from and classified by foreign governments and Federal agencies, in addition to those classified by the Department of State. Documents that have not been declassified are not available as part of this microcopy. The National Archives and Records Service does not have authority to make reproductions of such documents available to searchers.

The largest group of records reproduced in this microcopy concern treaties relating to arbitration, the renunciation of war, commerce and navigation, consular functions, and immigration between the United States and Brazil. Other records concern general relations and a proposed agreement for the control of traffic in liquor and narcotics between the United States and Brazil.

The records reproduced in this mocrocopy are part of the records in the National Archives designated as Record Group 59, General Records of the Department of State.

In the same record group are several diplomatic correspondence series containing additional documents on relations between Brazil and the United States. They are copies of instructions from the Department of State to U.S. Ministers to all countries, 1815-33 (Rolls 3-7 and 9 of Microcopy 77) and to U.S. Ministers to Brazil, 1833-1906 (Rolls 23-26 of Microcopy 77); notes to foreign ministers and consuls in the United States from the Department, 1810-34 (Rolls 2-5 of Microcopy 38); notes to the Brazilian Legation in the United States from the Department, 1834-1906 (Roll 9 of Microcopy 99); despatches from U.S. Ministers to Brazil to the Department, 1809-1906 (Microcopy 121); and notes from the Brazilian Legation in the United States to the Department, 1824-1906 (Microcopy 49). Also related to matters concerning Brazil are despatches from special agents of the United States to the Department, 1794-1906 (Microcopy 37).

There are also microfilm publications available on despatches from U.S. consular officials at Bahia (Salvador), 1850-

1906 (T-331); Florianopolis (Destêrro), 1831-36, see Santa Catarina (Roll 1 of T-483); Manaos (Manaus), 1881-82, see Para (Roll 5 of T-478); Maranham (Maranhão), 1817-76 (T-398), for 1876-77 see Para (Roll 5 of T-478); Para (Belém), 1881-1906 (T-478), for 1827-29 see Maranham (Roll 1 of T-398); Paranaíba (Paranhiba), 1867-72, see Para (Roll 5 of T-478); Pernambuco (Recife), 1817-1906 (T-344); Rio de Janeiro, 1811-1906 (T-172); Rio Grande do Sul, 1829-97 (T-145), St. Salvador (Salvador), 1808-49 (T-432); Santa Catarina (St. Catherine), 1831-74 (T-483); and Santos, 1831-1906 (T-351). Complementary to the despatches are instructions to consuls.

The method of arranging the diplomatic and consular series cited above was discontinued in 1906 when the Department of State adopted the practice of filing incoming and outgoing correspondence, memoranda, and other documents by subject in a single numerical series. Information on documents relating to Brazil for the 1906-10 period may be found through the use of card indexes and Lists of Documents in the National Archives.

Among the records in the same record group in the Department of State decimal file, 1910-29, are two other series regarding Brazilian affairs that are closely related to the records reproduced in this microcopy. One is another series in Class 7, which concerns political relations between Brazil and Other States (Microcopy 526), and the other is a series in Class 8, which relates to internal affairs of Brazil (Microcopy 519).

Additional documents are in the remaining classes of the Department of State decimal file as follows:

Class O. General. Miscellaneous.

Class 1. Administration, Government of the United States.

Class 2. Extradition.

Class 3. Protection of Interests.

Class 4. Claims.

Class 5. International Congresses and Conferences.

Multi-lateral Treaties. League of Nations.

Class 6. Commerce. Customs Administration. Commercial Relations, Treaties and Conventions.

Commercial and Trade Agreements.

In Record Group 84, Records of the Foreign Service Posts of the Department of State, are records originally kept at U.S. diplomatic and consular posts. Among them are records of the U.S. Legation (later Embassy) in Brazil, 1809-1935, and of consular posts in that country.

Other records relating to Brazil are in Record Group 43, Records of United States Participation in International Conferences, Commissions, and Expositions. There are also records of

the Commission representing the United States at the Brazilian Centennial Exposition, 1922-23.

The records reproduced in this microcopy were prepared for filming by Ernestine S. Cognasso, who wrote these introductory remarks and provided the other editorial material.

RECORDS OF THE DEPARTMENT OF STATE RELATING TO POLITICAL RELATIONS BETWEEN BRAZIL AND OTHER STATES, 1910-1929

On the 2 rolls of this microfilm publication are reproduced the records from the decimal file of the Department of State, 1910-29, that relate to political relations between Brazil and nations other than the United States. The records, consisting of bound volumes and unbound documents, are mostly instructions to and despatches from diplomatic and consular officials; the despatches are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representatives in the United States, memoranda prepared by officials of the Department, and correspondence with officials of other Government departments and with private firms and persons. The Lists of Documents or "purport sheets" filmed at the beginning of Roll 1 give brief abstracts of the documents reproduced in this microcopy and serve as a finding aid to the documents themselves. The arrangement of the entries on these lists generally corresponds to the arrangement of the documents in the file.

From 1910 to 1963 the Department of State used a decimal system for its central files, assembling and arranging individual documents according to subject and assigning decimal file numbers. The decimal file consists of nine primary classes numbered 0 through 8, each covering a broad subject area. The records reproduced in this microcopy are in Class 7, Political Relations of States. Each country has been assigned a two-digit number. The country numbers assigned to Brazil and to Italy, for example, are 32 and 65, respectively. Thus the documents bearing the file number 732.65 concern political relations between Brazil and Italy.

When two country numbers are used in a single file number, the lower number is the controlling one and precedes the decimal point; the number after the decimal point must be higher. Most of the documents reproduced in this microcopy concern relations between Brazil and those countries assigned a number higher than 32. Documents on relations between Brazil and countries having a number lower than 32 would be among records for the other country; for example, those on relations between Bolivia (24) and Brazil (32) would be filed under 724.32. Documents relating to relations with other countries in general, however, are filed under 732.00 and are included in this microcopy.

When one or more digits follow the second country number, they represent a specific subject. This number, in turn, may be followed by a slant mark (/). In such cases the numbers after the slant mark were assigned to individual documents as they were accumulated on a specific subject. For example, a decimal file number taken from a document reproduced in this microcopy is

732.655/4. The number 5 following the country number for Italy (65) signifies that the subject is negotiation of an immigration treaty between Brazil and Italy, and the number after the slant mark indicates the number of documents on this subject.

The documents under one subject classification are generally in chronological order, coinciding with the document number assigned (which follows the slant mark). There are instances, however, when a document file number was not assigned until a date considerably later than the one on which the document was received.

Cross-reference sheets referring to related records under other subject classifications in the decimal file have been reproduced as they occur, and appropriate cross-reference notations appear in the Lists of Documents. Other cross-reference notations are to documents in the "numerical file," a system used for the central files of the Department of State for the period 1906-10. The checkmarks that appear by most entries in the left-hand column of the Lists of Documents indicate that the papers are in the file; entries without marks, it is believed, refer to documents that were not among the records when they were received from the Department of State.

Some of the documents that have been checked in the Lists of Documents do not appear in this microcopy. The file contains security-classified documents and communications received from and classified by foreign governments and Federal agencies, in addition to those classified by the Department of State. Documents that have not been declassified are not available as part of this microcopy. The National Archives and Records Service does not have authority to make reproductions of such documents available to searchers.

The largest group of records reproduced in this microcopy concern relations between Brazil and other nations of Latin America. Included are reports concerning boundary disputes between Brazil and Uruguay, Paraguay, Argentina, British Guiana, and French Guiana.

The records reproduced in this microcopy are part of the records in the National Archives designated as Record Group 59, General Records of the Department of State.

In the same record group are several diplomatic correspondence series containing additional documents on relations between Brazil and the United States. They are copies of instructions from the Department of State to all countries, 1815-33 (Rolls 3-7 and 9 of Microcopy 77); and to U.S. Ministers to Brazil, 1833-1906 (Rolls 23-26 of Microcopy 77); notes to foreign ministers and consuls in the United States from the Department, 1810-34 (Rolls 2-5 of Microcopy 38); notes to the Brazilian Legation in the United States from the Department, 1834-1906 (Roll 9 of

Microcopy 99); despatches from U.S. Ministers to Brazil to the Department, 1809-1906 (Microcopy 121); and notes from the Brazilian Legation in the United States to the Department, 1824-1906 (Microcopy 49). Also related to matters concerning Brazil are some records among despatches from special agents of the United States to the Department, 1794-1906 (Microcopy 37).

There are also microfilm publications available on despatches from U.S. consular officials at Bahia (Salvador), 1850-1906 (T-331); Florianopolis (Desterro), 1831-36, see Santa Catarina (Roll 1 of T-483); Manaos (Manaus), 1881-82, see Para (Roll 5 of T-478); Maranham (Maranhão), 1817-76 (T-398), for 1876-77 see Para (Roll 5 of T-478); Para (Belém), 1831-1906 (T-478), for 1827-29 see Maranham (Roll 1 of T-398); Paranaíba (Paranhiba), 1867-72, see Para (Roll 5 of T-478); Pernambuco (Recife), 1817-1906 (T-344); Rio de Janeiro, 1811-1906 (T-172); Rio Grande do Sul, 1829-97 (T-145); St. Salvador (Salvador), 1808-49 (T-432); Santa Catarina (St. Catherine), 1831-74 (T-483); and Santos, 1831-1906 (T-351). Complementary to the despatches are instructions to consuls.

The method of arranging the diplomatic and consular series cited above was discontinued in 1906 when the Department of State adopted the practice of filing incoming and outgoing correspondence, memoranda, and other documents by subject in a single numerical series. Microcopy No. 526 Records of the Department of State Relating to Political Relations Between Brazil and Other States, 1910-1929	7

RECORDS OF THE DEPARTMENT OF STATE RELATING TO POLITICAL RELATIONS BETWEEN THE UNITED STATES AND BRAZIL, 1910-1929

On the single roll of this microfilm publication are reproduced the records from the decimal file of the Department of State, 1910-29, that relate to political relations between the United States and Brazil. The records, consisting of bound volumes and unbound documents, are mostly instructions to and despatches from diplomatic and consular officials; the despatches are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representatives in the United States, memoranda prepared by officials of the Department, and correspondence with officials of other Government departments and with private firms and persons. The Lists of Documents or "purport sheets" filmed at the beginning of the roll give brief abstracts of the documents reproduced in this microcopy and serve as a finding aid to the documents themselves. The arrangement of the entries on these lists generally corresponds to the arrangement of the documents in the file.

From 1910 to 1963 the Department of State used a decimal system for its central files, assembling and arranging individual documents according to subject and assigning decimal file numbers. The decimal file consists of nine primary classes numbered 0 through 8, each covering a broad subject area. The records reproduced in this microcopy are in Class 7, Political Relations of States. The country numbers assigned to the United States and to Brazil are 11 and 32, respectively. Thus the documents bear the file number 711.32 and concern political relations between the United States and Brazil.

When one or more digits follow the second country number, they represent a specific subject. This number, in turn, may be followed by a slant mark (/). In such cases the numbers after the slant mark were assigned to individual documents as they were accumulated on a specific subject. For example, a decimal file number taken from a document reproduced in this microcopy is 711.322/13. The number 2 following the country number for Brazil (32) signifies that the subject is a treaty concerning commerce and navigation, and the number after the slant mark indicates the number of documents on this subject.

The documents under one subject classification are generally in chronological order, coinciding with the document number assigned (which follows the slant mark). There are instances, however, when a document file number was not assigned until a date considerably later than the one on which the document was received.

Cross-reference sheets referring to related records under other subject classifications in the decimal file have been reproduced as they occur, and appropriate cross-reference notations appear in the Lists of Documents. Other cross-reference notations are to documents in the "numerical file," a system used for the central files of the Department of State for the period 1906-10. The checkmarks that appear by most entries in the left-hand column of the Lists of Documents indicate that the papers are in the file; entries without marks, it is believed, refer to documents that were not among the records when they were were received from the Department of State.

Some of the documents that have been checked in the Lists of Documents do not appear in this microcopy. The file contains security-classified documents and communications received from and classified by foreign governments and Federal agencies, in addition to those classified by the Department of State. Documents that have not been declassified are not available as part of this microcopy. The National Archives and Records Service does not have authority to make reproductions of such documents available to searchers.

The largest group of records reproduced in this microcopy concern treaties relating to arbitration, the renunciation of war, commerce and navigation, consular functions, and immigration between the United States and Brazil. Other records concern general relations and a proposed agreement for the control of traffic in liquor and narcotics between the United States and Brazil.

The records reproduced in this mocrocopy are part of the records in the National Archives designated as Record Group 59, General Records of the Department of State.

In the same record group are several diplomatic correspondence series containing additional documents on relations between Brazil and the United States. They are copies of instructions from the Department of State to U.S. Ministers to all countries, 1815-33 (Rolls 3-7 and 9 of Microcopy 77) and to U.S. Ministers to Brazil, 1833-1906 (Rolls 23-26 of Microcopy 77); notes to foreign ministers and consuls in the United States from the Department, 1810-34 (Rolls 2-5 of Microcopy 38); notes to the Brazilian Legation in the United States from the Department, 1834-1906 (Roll 9 of Microcopy 99); despatches from U.S. Ministers to Brazil to the Department, 1809-1906 (Microcopy 121); and notes from the Brazilian Legation in the United States to the Department, 1824-1906 (Microcopy 49). Also related to matters concerning Brazil are despatches from special agents of the United States to the Department, 1794-1906 (Microcopy 37).

There are also microfilm publications available on despatches from U.S. consular officials at Bahia (Salvador), 1850-

1906 (T-331); Florianópolis (Destêrro), 1831-36, see Santa Catarina (Roll 1 of T-483); Manãos (Manaus), 1881-82, see Para (Roll 5 of T-478); Maranham (Maranhão), 1817-76 (T-398), for 1876-77 see Para (Roll 5 of T-478); Para (Belém), 1881-1906 (T-478), for 1827-29 see Maranham (Roll 1 of T-398); Paranaíba (Paranhiba), 1867-72, see Para (Roll 5 of T-478); Pernambuco (Recife), 1817-1906 (T-344); Rio de Janeiro, 1811-1906 (T-172); Rio Grande do Sul, 1829-97 (T-145), St. Salvador (Salvador), 1808-49 (T-432); Santa Catarina (St. Catherine), 1831-74 (T-483); and Santos, 1831-1906 (T-351). Complementary to the despatches are instructions to consuls.

The method of arranging the diplomatic and consular series cited above was discontinued in 1906 when the Department of State adopted the practice of filing incoming and outgoing correspondence, memoranda, and other documents by subject in a single numerical series. Information on documents relating to Brazil for the 1906-10 period may be found through the use of card indexes and Lists of Documents in the National Archives.

Among the records in the same record group in the Department of State decimal file, 1910-29, are two other series regarding Brazilian affairs that are closely related to the records reproduced in this microcopy. One is another series in Class 7, which concerns political relations between Brazil and Other States (Microcopy 526), and the other is a series in Class 8, which relates to internal affairs of Brazil (Microcopy 519).

Additional documents are in the remaining classes of the Department of State decimal file as follows:

Class O. General. Miscellaneous.

Class 1. Administration, Government of the United States.

Class 2. Extradition.

Class 3. Protection of Interests.

Class 4. Claims.

Class 5. International Congresses and Conferences.

Multi-lateral Treaties. League of Nations.

Class 6. Commerce. Customs Administration. Commercial Relations, Treaties and Conventions.

Commercial and Trade Agreements.

In Record Group 84, Records of the Foreign Service Posts of the Department of State, are records originally kept at U.S. diplomatic and consular posts. Among them are records of the U.S. Legation (later Embassy) in Brazil, 1809-1935, and of consular posts in that country.

Other records relating to Brazil are in Record Group 43, Records of United States Participation in International Conferences, Commissions, and Expositions. There are also records of

the Commission representing the United States at the Brazilian Centennial Exposition, 1922-23.

The records reproduced in this microcopy were prepared for filming by Ernestine S. Cognasso, who wrote these introductory remarks and provided the other editorial material.

RECORDS OF THE DEPARTMENT OF STATE RELATING TO POLITICAL RELATIONS BETWEEN BRAZIL AND OTHER STATES, 1910-1929

On the 2 rolls of this microfilm publication are reproduced the records from the decimal file of the Department of State, 1910-29, that relate to political relations between Brazil and nations other than the United States. The records, consisting of bound volumes and unbound documents, are mostly instructions to and despatches from diplomatic and consular officials; the despatches are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representatives in the United States, memoranda prepared by officials of the Department, and correspondence with officials of other Government departments and with private firms and persons. The Lists of Documents or "purport sheets" filmed at the beginning of Roll 1 give brief abstracts of the documents reproduced in this microcopy and serve as a finding aid to the documents themselves. The arrangement of the entries on these lists generally corresponds to the arrangement of the documents in the file.

From 1910 to 1963 the Department of State used a decimal system for its central files, assembling and arranging individual documents according to subject and assigning decimal file numbers. The decimal file consists of nine primary classes numbered 0 through 8, each covering a broad subject area. The records reproduced in this microcopy are in Class 7, Political Relations of States. Each country has been assigned a two-digit number. The country numbers assigned to Brazil and to Italy, for example, are 32 and 65, respectively. Thus the documents bearing the file number 732.65 concern political relations between Brazil and Italy.

When two country numbers are used in a single file number, the lower number is the controlling one and precedes the decimal point; the number after the decimal point must be higher. Most of the documents reproduced in this microcopy concern relations between Brazil and those countries assigned a number higher than 32. Documents on relations between Brazil and countries having a number lower than 32 would be among records for the other country; for example, those on relations between Bolivia (24) and Brazil (32) would be filed under 724.32. Documents relating to relations with other countries in general, however, are filed under 732.00 and are included in this microcopy.

When one or more digits follow the second country number, they represent a specific subject. This number, in turn, may be followed by a slant mark (/). In such cases the numbers after the slant mark were assigned to individual documents as they were accumulated on a specific subject. For example, a decimal file number taken from a document reproduced in this microcopy is

732.655/4. The number 5 following the country number for Italy (65) signifies that the subject is negotiation of an immigration treaty between Brazil and Italy, and the number after the slant mark indicates the number of documents on this subject.

The documents under one subject classification are generally in chronological order, coinciding with the document number assigned (which follows the slant mark). There are instances, however, when a document file number was not assigned until a date considerably later than the one on which the document was received.

Cross-reference sheets referring to related records under other subject classifications in the decimal file have been reproduced as they occur, and appropriate cross-reference notations appear in the Lists of Documents. Other cross-reference notations are to documents in the "numerical file," a system used for the central files of the Department of State for the period 1906-10. The checkmarks that appear by most entries in the left-hand column of the Lists of Documents indicate that the papers are in the file; entries without marks, it is believed, refer to documents that were not among the records when they were received from the Department of State.

Some of the documents that have been checked in the Lists of Documents do not appear in this microcopy. The file contains security-classified documents and communications received from and classified by foreign governments and Federal agencies, in addition to those classified by the Department of State. Documents that have not been declassified are not available as part of this microcopy. The National Archives and Records Service does not have authority to make reproductions of such documents available to searchers.

The largest group of records reproduced in this microcopy concern relations between Brazil and other nations of Latin America. Included are reports concerning boundary disputes between Brazil and Uruguay, Paraguay, Argentina, British Guiana, and French Guiana.

The records reproduced in this microcopy are part of the records in the National Archives designated as Record Group 59, General Records of the Department of State.

In the same record group are several diplomatic correspondence series containing additional documents on relations between Brazil and the United States. They are copies of instructions from the Department of State to all countries, 1815-33 (Rolls 3-7 and 9 of Microcopy 77); and to U.S. Ministers to Brazil, 1833-1906 (Rolls 23-26 of Microcopy 77); notes to foreign ministers and consuls in the United States from the Department, 1810-34 (Rolls 2-5 of Microcopy 38); notes to the Brazilian Legation in the United States from the Department, 1834-1906 (Roll 9 of

Microcopy 99); despatches from U.S. Ministers to Brazil to the Department, 1809-1906 (Microcopy 121); and notes from the Brazilian Legation in the United States to the Department, 1824-1906 (Microcopy 49). Also related to matters concerning Brazil are some records among despatches from special agents of the United States to the Department, 1794-1906 (Microcopy 37).

There are also microfilm publications available on despatches from U.S. consular officials at Bahia (Salvador), 1850-1906 (T-331); Florianopolis (Desterro), 1831-36, see Santa Catarina (Roll 1 of T-483); Manaos (Manaus), 1881-82, see Para (Roll 5 of T-478); Maranham (Maranhão), 1817-76 (T-398), for 1876-77 see Para (Roll 5 of T-478); Para (Belém), 1831-1906 (T-478), for 1827-29 see Maranham (Roll 1 of T-398); Paranaíba (Paranhiba), 1867-72, see Para (Roll 5 of T-478); Pernambuco (Recife), 1817-1906 (T-344); Rio de Janeiro, 1811-1906 (T-172); Rio Grande do Sul, 1829-97 (T-145); St. Salvador (Salvador), 1808-49 (T-432); Santa Catarina (St. Catherine), 1831-74 (T-483); and Santos, 1831-1906 (T-351). Complementary to the despatches are instructions to consuls.

The method of arranging the diplomatic and consular series cited above was discontinued in 1906 when the Department of State adopted the practice of filing incoming and outgoing correspondence, memoranda, and other documents by subject in a single numerical series. Information on documents relating to Brazil for the 1906-10 period may be found through the use of card indexes and Lists of Documents in the National Archives.

RECORDS OF THE DEPARTMENT OF STATE RELATING TO INTERNAL POLITICAL AND NATIONAL DEFENSE AFFAIRS OF BRAZIL 1950-1954 DECIMAL FILE 732

On the 14 rolls of this microfilm publication are reproduced the records from the Decimal File of the Department of State, 1950-54, that relate to internal political and national defense affairs of Brazil. The records, consisting of unbound documents, are mostly instructions to and despatches from diplomatic and consular officials, many in the form of telegrams and airgrams. Despatches transmitted by the diplomatic pouch are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representatives in the United States, memorandums prepared by officials of the department, and correspondence with officials of other U.S. Government departments and with private firms and individuals. These records belong to National Archives Record Group 59, General Records of the Department of State.

The records reproduced in this microfilm publication are in class 7, Internal Political and National Defense Affairs of States. The country number assigned to Brazil is 32; thus the documents bear the file number 732 and relate to internal political and national defense affairs of Brazil. A decimal point is used after the first three digits, followed by a number that represents a specific subtopic. This number, in turn, is followed by a slant mark (/). The numbers after the slant mark represent the date the document was created or filed; the first number represents the month, followed by a dash (-), which in turn is followed by numbers representing the day and year. For example, a Decimal File number taken from a document reproduced in this publication is 732.00/1-252. The number 00 signifies that the subtopic is political affairs and conditions, and the numbers after the slant represent January 2, 1952, the date the document was created.

The documents under one subject classification are generally in chronological order. However, there are instances when the numbers representing the date of a document were not assigned until considerably after the date it was actually created.

Security Classified Records

Some of the documents in the file have been removed and do not appear in this microfilm publication. The removed materials are the security-classified documents and communications received from and classified by foreign governments and federal agencies, in addition to those classified by the Department of State. They have been withdrawn from the file and replaced by

withdrawal notices that contain information sufficient to identify the document and to ascertain the basic reason for its continued classification. The National Archives does not have the authority to make reproductions of classified documents available to researchers.

Related Records

Record Group (RG) 59 contains all the departmental records relating to Brazil. Those that have been filmed are listed below in accordance with the three successive filing systems used by the department and posts.

From the beginning of formal relations with Brazil in 1799 until 1906, the Department of State filed diplomatic records created or accumulated by country. Out of these records the following have been filmed:

Copies of instructions from the department to U.S. ministers in Brazil, 1808-1906, M77 (1808-32, rolls 2-7; 1832-33, roll 9; and 1833-1906, rolls 23-26);

Despatches from U.S. ministers in Brazil to the department, 1809-1906, M121;

Notes from the department to foreign ministers and consuls in the United States, 1793-1834, M38;

Notes from the department to the Brazilian Legation in the United States, 1834-1906, M99 (roll 9); and

Notes from the Brazilian Legation in the United States to the department, 1824-1906, M49.

In 1906, the department adopted a subject-numerical filing system, filing documents in a single numerical series and using a subject index to aid retrieval. This "Numerical and Minor File" has been filmed as National Archives Publication M862.

Between 1910 and 1963, the department used another subjectnumerical system called the Decimal File. From 1950 through 1963 a revised version of this system was used; a comparison of the main subjects (abbreviated) and decimal numbers reveals the differences:

For the period 1910-29, all records in Class 7 have been filmed; political relations between Brazil and the United States on M525 and between Brazil and other states on M526. All records in Class 8 have been filmed for the period 1910-29 on M519; for the period 1930-39 on M1472; and for the period 1945-49 on M1492. Additional records on the internal affairs of Brazil for the period 1950-54 (Class 8, revised) are filmed on M1489.

In Records of the Foreign Service Posts of the Department of State, Record Group 84, are records originally kept at U.S. diplomatic and consular posts. Among these are records of the U.S. Legation (later Embassy) in Brazil and of consular posts in that country.

Other records relating to Brazil are in Records of Boundary and Claims Commissions and Arbritrations, Record Group 76, which includes records relating to claims against Brazil under the convention of 1849 (T1187).

The records reproduced in this microfilm publication were prepared for filming by Patricia Ortega. J. Dane Hartgrove wrote these introductory remarks and supervised preparation of this microfilm publication.

RECORDS OF THE
DEPARTMENT OF STATE
RELATING TO INTERNAL, ECONOMIC
INDUSTRIAL AND SOCIAL AFFAIRS
OF BRAZIL
1950-1954

On the 34 rolls of this microfilm publication are reproduced the records from the Decimal File of the Department of State, 1950-54, that relate to internal economic, industrial, and social affairs of Brazil. The records, consisting of unbound documents, are mostly instructions to and despatches from diplomatic and consular officials, many in the form of telegrams and airgrams. Despatches transmitted by the diplomatic pouch are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representative in the United States, memorandums prepared by officials of the department, and correspondence with officials of other U.S. Government departments and with private firms and individuals. These records belong to National Archives Record Group 59, General Records of the Department of State.

The records reproduced in this microfilm publication are in Class 8, Internal Economic, Industrial, and Social Affairs of States. The country number assigned to Brazil is 32; thus the documents bear the file number 832 and relate to internal economic, industrial, and social affairs of Brazil. A decimal point is used after the first three digits, followed by a number that represents a specific subtopic. This number, in turn, is followed by a slant mark (/). The numbers after the slant mark represent the date the document was created or filed; the first number represents the month, followed by a dash (-), which in turn is followed by numbers representing the day and year. For example, a decimal file number taken from a document reproduced in this publication is 832.10/4-350. The number 10 signifies that the subtopic is general financial matters, and the numbers after the slant represent April 3, 1950, the date the document was created.

The documents under one subject classification are generally in chronological order. However, there are instances when the numbers representing the date of a document were not assigned until considerably after the date it was actually created.

Classified Records

Some of the documents in the file have been removed and do not appear in this microfilm publication. Removed materials are the security-classified documents and communications received from and classified by foreign governments and federal

agencies, in addition to those classified by the Department of State. They have been withdrawn from the file and replaced by withdrawal notices that contain information sufficient to identify the document and to ascertain the basic reason for its continued classification. The National Archives does not have the authority to make reproductions of classified documents available to researchers.

General Records of the Department of State

Record Group 59

RECORDS OF THE DEPARTMENT OF STATE RELATING TO INTERNAL AFFAIRS OF BRAZIL 1945-1949 DECIMAL FILE 832

On the 48 rolls of this microfilm publication are reproduced the records from the decimal file of the Department of State, 1945-49, that relate to internal affairs of Brazil. The records, consisting of unbound documents, are mostly instructions to and despatches from diplomatic and consular officials, many in the form of telegrams and airgrams. Despatches transmitted by the diplomatic pouch are often accompanied by enclosures. Also included in these records are notes between the Department of State and foreign diplomatic representatives in the United States, memorandums prepared by officials of the department, and correspondence with officials of other government departments and with private firms and individuals. These records belong to National Archives Record Group 59, General Records of the Department of State.

From 1910 to 1963 the State Department used a decimal system for its central files, assembling and arranging individual documents by subject and assigning file numbers. The decimal file consists of nine primary classes numbered 0 through 8, each number covering a broad subject area. The records reproduced in this microfilm publication are in Class 8, Internal Affairs of States. The country number assigned to Brazil is 32; thus the documents bear the file number 832 and relate to internal affairs of Brazil. A decimal point is used after the first three digits, followed by a number that represents a specific subtopic. This number, in turn, is followed by a slant mark (/). The numbers after the slant mark represent the date the document was created or filed; the first number represents the month, followed by a dash (-), which in turn is followed by numbers representing the day and year. For example, a decimal file number taken from a document reproduced in this publication is 832.00/1-247. The number 00 signifies that the subtopic is political affairs and conditions, and the numbers after the slant represent January 2, 1947, the date the document was created.

The documents under one subtopic are generally in chronological order. However, there are instances when the numbers representing the date of a document were not assigned until considerably after the date it was actually created.

${\tt Security-Classified}\ {\tt Records}$

Some of the documents in the file have been removed and do not appear in this microfilm publication. The removed materials are the security-classified documents and communications received from and classified by foreign governments and federal

agencies, in addition to those classified by the Department of State. They have been withdrawn from the file and replaced by withdrawal notices that contain information sufficient to identify the document and to ascertain the basic reason for its continued classification. The National Archives does not have the authority to make reproductions of classified documents available to researchers.

Related Records

In the same record group are several series of diplomatic correspondence containing additional documents on relations between Brazil and the United States. They are copies of instructions from the Department of State to U.S. ministers to all countries, 1808-32 (rolls 2-7 of M77), to U.S. ministers to the American states, 1832-33 (roll 9 of M77), and to U.S. ministers to Brazil, 1833-1906 (rolls 23-26 of M77); notes to foreign ministers and consuls in the United States from the department, 1793-1834 (M38), and notes to the Brazilian Legation in the United States from the department, 1834-1906 (roll 9 of M99); despatches from U.S. ministers to Brazil to the department, 1809-1906 (M121); and notes from the Brazilian Legation in the United States to the department, 1824-1906 (M49).

Despatches from U.S. consular officials in Brazil are available as separate microfilm publications for each post, with varying date spans between 1799 and 1906. Complementary to the despatches are instructions to consuls, which are microfilmed only through 1834 (M78).

The arrangement of the diplomatic and consular series cited above existed from 1789 to 1906, when the Department of State adopted the practice of filing incoming and outgoing correspondence, memorandums, and other documents by subject in a single numerical series, called the numerical and minor file. This filing scheme was used until 1910. Information on documents relating to Brazil for the 1906-10 period may be found through the use of card indexes in the National Archives. The numerical and minor file has been filmed as National Archives Microfilm Publication M862.

Between 1910 and 1963, the department used another subjectnumerical system called the decimal file. A revised version of the 1910 system was begun in 1950; a comparison of the main subjects (abbreviated) and decimal numbers reveals the differences:

There are six other microfilm publications of records in the decimal file relating to Brazil. In class 7, 1910-29, there are two categories, 711.32 and 732, which cover political relations between the United States and Brazil (M525) and political relations between Brazil and other states (M526), respectively. Records in Class 8, Internal Affairs of States, have been reproduced for 1910-29 (M519) and 1930-39 (M1472). In the revised filing system in use after 1949, records have been reproduced for 1950-54 in Class 7, Internal Political and National Defense Affairs (M1487), and in Class 8, Internal Economic, Industrial, and Social Affairs (M1489).

In Records of the Foreign Service Posts of the Department of State, Record Group 84, are records originally kept at U.S. diplomatic and consular posts. Among these are records of the U.S. Legation (later Embassy) in Brazil and of consular posts in that country.

Other records relating to Brazil are in Records of Boundary and Claims Commissions and Arbitrations, Record Group 76, which includes records relating to claims against Brazil under the convention of 1849, filmed as National Archives Microfilm Publication T1187.

The records reproduced in this microfilm publication were prepared for filming by Patrick Moore. Milton Gustafson wrote these introductory remarks and supervised preparation of this microfilm publication.
